SUB FOR SANTA

Children do not need elaborate gifts to have a good time; the best things in life are free. Have you ever noticed that your child plays with the box more than the gift itself? Why not give your child a box for Christmas this year? If your child is older and would enjoy decorating a personal box, gather the supplies needed to decorate it and put it inside the box and wrap it up. You and your child will have hours of fun while creating lasting memories.
