

MUSIC

Lesson

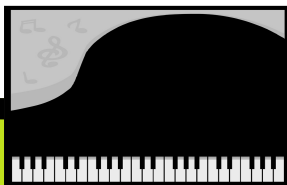

Music is all around us: we listen to it in the car, our homes, and even as we walk down the street. It is important to introduce your child to music because music is a great tool of expression. The introduction of music is a key ingredient in helping your child explore their imagination.

Outing

Go for a walk around the neighborhood and point out the singing birds, the honking horns, and anything else that can be seen as music. This is a great opportunity to show your child that they can make music out of many different things.

Snack Time

Ingredients: Apples and caramel dipping sauce.
Directions: Wash the apples and slice them into several pieces and serve with a premade caramel dipping sauce.

Activity & Games

Musical Chairs:

Place chairs in a circle, there should be one fewer than the number of people playing. Someone must be in charge of the music. As the music plays everyone walks around the chairs and once the music stops they must sit down. Whomever is left without a chair is out. Take away a chair and begin again. Play as many times as you want.
